Several of these brands are much larger than 8 oz and contain as much as 4 times what is in a normal cup of coffee or normal soft drink. When you see caffeine listed on the label of an energy drink, it is because it contains synthetic caffeine or caffeine anhydrous. Most sodas with LOW or no calories & sugar contain ingredients such as ASPARTAME & Sucralose, which more & more research seems to reveal health controversies.

bHIP Energy is made of fruit extracts, vitamins & minerals that work at the cellular level. Guarana is one of several energy producing ingredients & contains a substance known as theobromine, which is similar in chemical composition to the molecules found in chocolate. This is a naturally occurring caffeine & gives a very nice, level, non-jittery energy. bHIP Energy is a natural formula that works faster, lasts longer, and is healthier for you!

bHIP Energy contains the highest quality ingredients known in the industry. It also has the most unique proprietary blend ever created! Industry experts say we have the first ever 'herbal clean energy' drink. bHIP Energy drink is truly a category creator in the beverage industry. "A New Breed of Energy"
